## Reflection:

EY technology helps companies solve problem for making businesses better and more efficient. It shows how tools like AI are transforming businesses. It inspired me to explore how technology can create real-world impact in my field.

—Husna Safiyyah (A24CS0083)

From this industry talk, I learned that EY uses a human-centered approach in technology to solve client challenges and drive innovation. EY provides consulting services across tech areas like digital transformation, data, and cybersecurity, tailored to each client's needs. Their global reach and industry expertise allow them to help businesses grow and adapt effectively. EY's focus on a collaborative tech approach also gives graduates and interns a chance to gain practical, career-boosting experience.

— [YAASWINY ABBIRAMAVALLY THINAHARAN, A24CS0213]

The information that I have gained from this talk is that there are a lot of job opportunities in ICT field for fresh graduates. As I can see from the EY consulting company, they develop a platform to help the clients to improve and transform their operations through effective technology solutions. In short, I found that ICT consultant job is playing an important role in all industries. And, it is also one of the best careers of my ideal job in the future.

— [SEAH ZHANG JIAN, A24CS0297]

I gained insight and knowledge on the needs and demands of a technological company to prepare myself before entering the industry after graduating.

—Nurulhanisa binti Mohd Ikhsan (A21EM0207)

From this industry talk, I realised that EY highly use technology to solve problem that people are facing. EY offer consultation services to ensure client needs are met. I also found that EY provides valuable opportunities not only to fresh graduate but also to interns, allowing them to gain hands-on experience with client and improve their personal careers. Lastly, EY sets specific requirements for intern and fresh graduate, which helped me better understand what company look for in an employee.

— Najihah Binti Azhan Khan (A24CS0144)
